

Literally hundreds of email and non-email submissions by residents of University Heights (and others) have been made to the City of Calgary on prospective Stadium Shopping Centre redevelopment. It is not possible to provide them all here, and consequently only a few submissions are included to indicate the types of responses that have been made. A survey of opinions of UH residents about possible redevelopment at Stadium Centre is provided in the document: UH Opinion Survey-Final.pdf. This document was submitted to the City of Calgary in May. Many opinions by UH residents and others also appear in the City's lengthy document: stadium-final-engagement-summary-report.pdf

Anyone interested in examining the large number of individual responses that have been submitted to the City is encouraged to contact the UHCA President, Mr. Peter Khu at the email address:
