Des,

I have made an indesign package of the document as well as filing the images in folders.

Both can be downloaded from our FTP site. Instructions below.

Let's discuss any missing material and how the 28th is going to work.

Please let me know when you have grabbed the files off the computer.

Thanks,

Brian

Brian,

I like the sketches. Can the charts be re-worked as continuous line charts (so that we're not giving the impression of three height 'zones'), and done free-hand (so as to appear sketchy and conceptual)?

A package of jpegs would be ideal; just specify (either in the filename or elsewhere) what the appropriate credit information is.

Thanks,

-Des

Des,

Attached is a pdf with the updated imagery for your use. My colleague is currently preparing one more interface sketch of the west (park) relationship. When ready, I will send it over (will be today)

Please review and give me a call to discuss if there is anything more we need.

Once confirmed, I will package the images as jpegs for you to use. Some will need to have specific credits given to them.

This is a low-res version for email. If you would like a high-res to review, I can upload it to our FTP site.

Thanks,

Brian
