Hi Mark,

I have met with both Judy and Stan this week and have their approval to lead the project forward based on the proposed approach.

We have a meeting set up for later this afternoon with a smaller "core team" to discuss next steps; in particular setting up some engagement sessions with the developer.

Looking forward to meeting with you,

Shelley

Stan/Judy,  
Please progress this to an approval, so we can keep our customer service timeline intact with Western Securities.

We are trying to meet with the Developer this week or next to introduce them to this project approach in a formal step.

Thanks
