Section 8(a) of the Land Use Bylaw states "words in the singular include the plural".

An owner-initiated redesignation to a parcel of land must include the prior authorization of all owners of a parcel of land.

A city-initiated redesignation does not require owner authorization for the process to commence, but does require the notification of all owners.

If you have any more questions, please let me know.

Judy

 When doing business with us you will receive  
**Helpful Equitable Accurate and Responsive service.**
