Hi Kerensa,

Thanks for sending your comments and suggestions on the workshop scope/agenda. Attached is our draft background material for the workshop. As discussed earlier, on Monday we can discuss the content of the material and decide which material we circulate to the participants prior to the workshop.

Have a great weekend,

Brian

Hi Mike,

I don't disagree that it would be good to send something... Let's decide once I've had a chance to look the info over that your team is preparing. We're just walking that fine line between helping people prepare, versus having them come in with their minds made up already, perhaps less willing to hear other perspectives... I have personally connected with everyone attending, so at least no one's coming in blind.

I have a 2-3:30 mtg Monday. Are you open in the morning at all (anytime until 11:30) Or I can meet/talk at 3:30.

I'm a little worried that if we have any comments on the workshop materials, we may not have much time left to make any modifications...

Thanks,
-Kerensa.
